WORK EXPERIENCES

Acument | Software Engineering Intern

April 2024 – September 2024

- Lead the end-to-end development of the official company website using HTMX, SCSS, and Strapi, creating a highly responsive, performant platform designed to showcase company services, job postings, and essential business information, delivering an intuitive digital experience for clients and job applicants.
- Engineered dynamic, interactive web components with HTMX, enabling real-time content updates without requiring full-page reloads, resulting in a more seamless and engaging user experience while improving website speed and performance.
- Designed and implemented a modern, visually appealing user interface using SCSS, applying advanced styling techniques, custom animations, and smooth transitions to ensure the site remained fully responsive, accessible, and engaging across desktop and mobile devices.
- Integrated Strapi CMS to provide a code-free content management system, allowing non-technical staff to independently update job listings, company information, and blog posts without developer assistance, improving operational efficiency.
- Developed and executed unit and integration tests to verify frontend functionality, API endpoints, and CMS workflows, ensuring robust code quality, minimizing bugs, and preventing regressions across the application lifecycle.
- Authored comprehensive technical documentation detailing the project's architecture, CMS configuration, and deployment processes, creating a valuable reference guide for future developers and facilitating faster onboarding of new team members.

Rothschild | Private Wealth Analyst

February 2018 – March 2018

- Conducted data-driven equity analysis, leveraging quantitative models and algorithmic approaches to evaluate market trends, company performance, and industry conditions, strengthening analytical and problem-solving skills.
- Utilized automation tools and data visualization techniques to streamline market research, improving efficiency in identifying key investment trends and presenting insights to stakeholders.
- Delivered detailed reports and presentations to senior leadership, translating complex financial data into clear, actionable recommendations, demonstrating strong analytical thinking and communication skills.

1st Class Accountants | Data Analyst Intern

March 2018 – April 2018

- Applied advanced Excel techniques and algorithmic problem-solving to create, manipulate, and analyze financial datasets, improving reporting accuracy and efficiency.
- Developed automated workflows and data validation methods to ensure accurate financial records, streamlining processes and minimizing errors.
- Collaborated with cross-functional teams to resolve data discrepancies, demonstrating strong analytical thinking, attention to detail, and effective problem-solving skills.

Top Tutors | Cambridge GCSE and A-Levels Tutor

June 2022 - Present

- Provided 1-on-1 tutoring and mini classes in Mathematics, Further Mathematics, Additional Mathematics, Physics, Chemistry, and English Literature, tailoring lessons to individual student needs to enhance understanding and confidence while maintaining clear communication with parents to track progress and set academic goals.

Other: Technology Internships at SMF and Sutton Trust, Crew Leader at McDonald's, Store Assistant at Next.

EDUCATION

Queen Mary University of London, England, U.K.

BSc (Hons) Creative Computing

First Class Honors

Bow School, London, England

AQA A-Levels & Edexcel: Mathematics (B), Further Mathematics (B), Physics (B), 8 GCSEs including Mathematics (8), English Literature (9), Computer Science (7), Bronze Certificate in UK Mathematics Challenge.

ACHIEVEMENTS

Vice President, Bow School Charity Committee

- Led fundraising efforts, coordinated strategic initiatives, and partnered with nonprofits to drive donations.

Peer Supporter

- Provided mentorship and support to students, promoting mental well-being and encouraging positive lifestyle choices.
